

Advanced Higher Biology Theme Days From DNA to the Environment 4 and 11 November 2010 10.00 - 15.15

Two special theme days are to be held at SCRI, Invergowrie, Dundee for sixth year students.

The two days have been organised and sponsored by SCRI and the British Science Association (Tayside and Fife Branch).

Each Biology day aims to introduce senior pupils (particularly those thinking about biology as a career choice) to the relevance and uses of this subject in research, teaching and industry. The programme is designed to link closely with Advanced Higher Biology and will be invaluable to teachers as well as pupils.

Students and teachers will have the opportunity to discuss a wide range of highly relevant research with staff at SCRI and will visit a number of laboratories, learning at first hand from those who chose biology as their career.

Coffee, juice and a packed lunch will be provided free of charge for all attendees, courtesy of SCRI and the British Science Association.

If your school would like to participate in one of these theme days at SCRI, please contact:

Sharon Neilson, Outreach and Events Manager
SCRI, Invergowrie, Dundee, DD2 5DA
Tel: 01382 562731 Fax: 01382 560002
E-mail communications@scri.ac.uk

Both Biology Days are the same, so please indicate which date you would prefer.

Bookings are on a first come basis

Deadline for bookings 17 September 2010

Only schools with a confirmed booking can be accommodated

Further details about SCRI can be found at www.scri.ac.uk

For more information on the British Science Association, visit www.britishsociety.org
